MOHALI | NAWANSHAHAR

**PROSPECTUS**

## A Legendary Beginning...

The Doaba Group of colleges has written success stories in the field of Higher education ever since its inception in the year 1998. The Group presently runs and manages two educational campuses offering state, national and international curricula – nurturing students to be global achievers for tomorrow's world. The new millennium spirit that drives DGC is evident in the courses we offer, which are both contemporary and futuristic. In DGC, conventional streams of technology & business share space with Humanities disciplines and train its students in cutting-edge technologies.

Ranked 10<sup>th</sup> in  
North Zone by Silicon

## The Pursuit of All-round Excellence...

### Our Mission

To establish ourselves as a renowned learning community that is focused on developing youngsters who will become leaders in an era of global competitiveness and technological advancements. Our community will be committed to ascertaining and disseminating relevant knowledge and providing specialized educational experiences of the highest caliber to advance the theory and practice of all study programs.

### Our Vision

The belief that education is a preparation for a fruitful life and not acquired just to make a living is the edifice on which DGC has been established. To prepare and empower the students for life by providing holistic education including the intellectual, emotional, social, physical and spiritual facets and attributes is the essence of our pedagogy and training.

## From the Leaders' Desk...

### Chairman's Message

Greetings from Doaba Group of Colleges! We are proud to be the first to pioneer degree level engineering education, Management courses, Pharmacy courses, and much more. In this age of liberalization, privatization, and globalization, there is an ever-increasing industry requirement for professionals who have high employability index and required competencies with an inquisitive mindset for innovations. Our Institutes hold the pride of place being pioneers in the various fields in the country and has a glorious heritage. We have been

continuously ranked among the elite by our peers and our constant pursuit of excellence has made our institute a focal point in technical education for students and faculty members alike. We aspire to reach the pinnacle of success in producing qualified professionals. I extend my best wishes to all the students and staff of Doaba Group of Colleges.

-M.S. Batth

### President's Message

Warm greetings from Doaba Group of Colleges! Our penchant to evolve has steered us to widen our horizons as we complete more than two decades of excellence. Doaba Group of Colleges provides facilities for quality market-oriented training to the students in order to reap the precious demographic dividend both at state and national levels respectively and contribute to sustainable development as a whole. The institution has already made a mark in various fields namely sports and academic pursuits apart from other extra-curricular activities. Our

research is persistent, our pursuit is unrelenting and our perseverance tireless. Imparting the right knowledge, enhancing worldly wisdom and creating distinct individuals is our objective. With an extremely skilled set of faculty members and state-of-the-art infrastructure, the college ensures that the students are provided with the best atmosphere to learn and grow in. We seek to prepare our young women and men such that when they leave Doaba College, they are well-rounded individuals ready to take on challenges in their respective fields.

-Dr. H.S. Batth

### Managing Vice Chairman's Message

Imparting quality technical and professional education is a challenge in itself. In a very short span of a decade or so, we at Doaba Group of Colleges have been able to create quality infrastructure in both campuses. Our alumni include some of the best-known names in the field of technical education as we have an abiding commitment to providing state-of-art facilities and a throbbing intellectual atmosphere at our campuses. As we begin the new session, our focus will be on developing an egalitarian and affordable model of education without

compromising quality. It is a wonderful opportunity for young talent to join the Doaba Group of Colleges for high quality technical and professional education. Doaba Group of Colleges has a mission to create pertinent employment opportunities for the young men and women by imparting requisite skills in their chosen stream at our campuses.

-S.S. Sangha

### Executive Vice Chairman's Message

For the development and enhancement of the mental canvas of the students, it is a must for them to know something of everything and everything of something. As the times have changed, specialization and teamwork are the buzz words of the modern system. The competitive global culture of the era demands continuous efforts to learn and adapt. The congenial and cosmopolitan educational environment in the institutes of Doaba Group gives impetus to the nourishment of the youth with the much needed technical and professional education along

with mental, physical and spiritual growth. The team Doaba comprising NRIs and Indian residents has a 'Never say die spirit'. Hard work is our mantra. I extend a warm welcome to the students and their parents who wish to join Doaba Group of Colleges.

-Manjit Singh

### The MOU Signing

DGC, in order to facilitate and equip its students for the industry competition, as well as provide exposure to the international scenario, has tie-ups with foreign universities.

DGC has signed an MOU with the following foreign universities:-

- ★ University of Wolverhampton, UK
- ★ University of the Fraser Valley, British Columbia, Canada
- ★ University Canada West, Vancouver, Canada

Through this MOU, Doabians have availed the following benefits:-

- ★ DGC diploma qualified students can enroll in the 4th semester course at the foreign university.
- ★ Students, who have cleared all the papers up to the 6th semester, can get enrolled in the 7th-semester course at the foreign university.
- ★ Faculty exchange programs will be held between both organizations regularly for a specific period.
- ★ If there are admissions in a group of 10 students or more, the University may provide concession in tuition fee.

## Seek Your Dream Be Your Dream!

### Our Campuses

Doaba Group of Colleges is an ever-evolving hub of education "where enlightenment leads to empowerment". It is administered by a dedicated & charismatic team of visionaries of Doaba Khalsa Trust and has following 2 campuses:

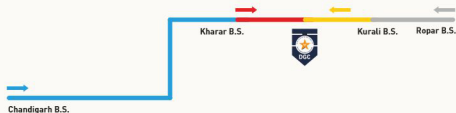

#### Mohali Campus (Near Chandigarh)

- ★ Strategically Situated on NH-21
- ★ 12 km away from Chandigarh
- ★ Spread over 30 Acres of Land
- ★ Gateway of 4 States (J&K, HP, Haryana, Delhi)
- ★ Easy Access from Chandigarh, Mohali, and Panchkula
- ★ Round the clock bus service is available to all parts of Punjab and nearby states.

#### Nawanshahar Campus

- ★ Established in 2009.
- ★ Campus Transport Services are available on various routes from SBS Nagar, Machhiwara, Banga, Garhshankar, Balachor, Ropar and Phillaur.
- ★ The infrastructure has been developed in conformity with global norms and standards.
- ★ Strategically Situated on Rahon-Chandigarh Road, at Rahon, Distt. SBS Nagar
- ★ About 7 km from Nawanshahar
- ★ Easily accessible by Road, Train and other local modes of transport.
- ★ Spread over 15 Acres of Land

## Courses Offered (Detailed)

### 1. Civil Engineering (B-Tech/ Diploma)

#### About The Course:

Civil Engineering is one of the oldest branches of Engineering because it deals with the day to day necessities of life and provides a complete physical infrastructure for our modern society. Civil Engineers are concerned with all types of structures including dams, bridges, pipelines, roads, towers and buildings, transport systems, the design and management of our gas and water supply, sewerage systems, harbors, airports, and railways.

#### Career Opportunities:

Civil engineers may specialize as chief civil engineers, construction engineers, municipal engineers, structural engineers, transport engineers, or water supply distribution engineers. They have a lot of opportunities in the private sector as consulting engineers, project managers or construction contractors or a wide range of government departments. Prestigious civil engineering projects such as express highway, Railway project, large dams and various bridges, Water Resources, and Environmental Projects, Transportation/Traffic in India and abroad require Civil Engineers.

#### Further Education:

M. Tech Civil Engg.

### 2. Computer Science & Engineering (B-Tech/ Diploma)

#### About The Course:

The computer industry is one of the fastest-growing segments of our economy and that growth promises to continue in the future also. This branch deals with the design and construction of computers, the development of computer programs (software), computer-based information and control systems. The rise of disruptive technologies such as Augmented Reality (AR), Virtual Reality (VR), Artificial Intelligence (AI), and Additive Manufacturing (AM) are set to dominate the industry in the upcoming months. Engineers must be at the forefront of innovation and emerging technologies as well as the new technologies that have become important tools for engineers and designers.

#### Career Opportunities

- ★ Web Designing
- ★ Network Engineer
- ★ System Administrator
- ★ System Analyst

#### Further Education:

M. Tech CSE/MS

### 3. Electronics & Computer Engineering (M-Tech/B-Tech/Diploma)

#### About The Course:

The core of the program equips students with fundamental knowledge in electronic circuits, electronic devices, signal processing, communication, control theory, and computers. This course is also a part of the electronic switching system between source and destination in long-distance telecommunications. It includes the field of fiber optic communication, satellite telecommunication, and other communication systems.

#### Career Opportunities:

Electronic professionals have opportunities in Defense, space and other large research organizations that employ professionals in the design and development of complex devices and systems for signal processing and telecommunication.

#### Further Education:

M. Tech in various subjects such as Fiber Optics and Lightwaves, Microelectronics & VLSI Designing, RF and Microwaves, Telecommunication Systems, Visual Information, and Embedded Systems.

### 4. Mechanical Engineering (B-Tech/ Diploma)

#### About The Course:

Diploma holders in Mechanical engineering are imparted training to work in the industry as supervisors of production shops which includes supervision of workers working on the machines. They are responsible for controlling the production and quality of the product on the shop floor as well as be responsible for production, planning and control, erection, installation, calibration and testing of equipment.

#### Career Opportunities:

A mechanical engineering graduate can choose a career in Machine Tool Industry, Automobile Industry, Railway, Thermal Plants, Govt. Departments like PWD, B&R. Nowadays mechanical engineering diploma holders do find good opportunities in Army Navy & Air force.

#### Further Education:

M. Tech in various subjects such as Thermal, Machine Design, Production, CAD/CAM, Mechanical Engineering, etc.

## 5. Electrical Engineering (B-Tech/ Diploma)

### About The Course:

Electrical engineering is a field of engineering that generally deals with the study and application of electricity, electronics, and electromagnetism. Electrical engineering has now subdivided into a wide range of subfields including electronics, digital computers, power engineering, telecommunications, control systems, RF engineering, signal processing, instrumentation, and microelectronics.

### Career Opportunities:

Electrical engineers have excellent career prospects in different areas like in the field of Generation, Transmission, and Distribution of Electrical power, Operation, and maintenance of equipment, lines, fault location, planning and designing of simple distribution schemes, Executive and supervisory control in power stations or sub-stations, transmission and distribution networks, installation, maintenance and repair of a variety of electrical equipment. Private Industries and firms dealing in the field of Meters and manufacturing and sale of a variety of electrical equipment.

### Further Education:

**M. Tech/MS in various subjects such as Power Engineering, Control, and Instrumentation, etc.**

## 6. B. Pharmacy & D. Pharmacy (Introducing soon)

### About The Course:

Doaba College of Pharmacy is one of the best B-Pharmacy colleges in Chandigarh, Mohali and north India. DGC offers 4 years of Bachelor of Pharmacy (B.Pharm) course and it consists of eight semesters. The course covers all the related topics of the study field and gives rigorous training to the students. D. Pharmacy Diploma in Pharmacy will be added soon with us.

### Career Opportunities:

After B.Pharm, there are various opportunities for students as they can get jobs in the chemical companies, research institutes, Pharma companies, and even universities and colleges. Clinical research has also opened its doors for B.Pharm graduates as medical underwriters, CRO, data validation associate, clinical research associate, etc.

### Further Education:

★ **M. Pharmacy**      ★ **MBA**

## 7. BCA

### About The Course:

This is an undergraduate program where students are exposed to various areas of computer applications including the latest developments keeping pace with the industry. The course aims at realizing the following student objectives:

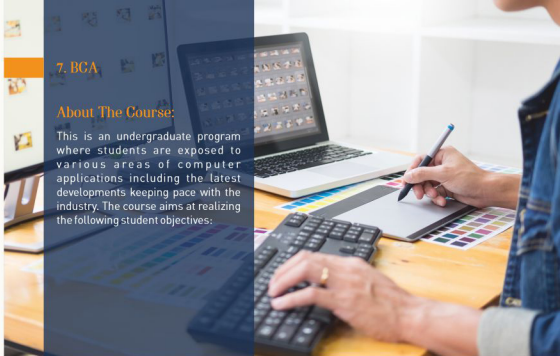

- ★ To demonstrate a sound knowledge in key areas of computer science or industrial computing.
- ★ To demonstrate a substantial understanding of concepts in key areas of computer science.
- ★ To carry out the required analysis and synthesis involved in computer systems, information systems, and computer applications.
- ★ To demonstrate professional competence in developing software and in its design and implementation.
- ★ To develop sound practical skills to enable them to address problems that arise from computer systems and applications.

### Career Opportunities:

- ★ Graphic Designing
- ★ Multimedia Companies
- ★ Web Designing
- ★ System Administrator
- ★ Network Engineer
- ★ Software Engineer

### Further Education:

★ **MCA**      ★ **MBA**

## 8. BBA

### About The Course:

It is a graduate degree program of three years duration. Intermediates from any background can pursue the BBA course. This course helps an aspirant to study the economic trends, fiscal policies and also the different administrative and commerce-oriented techniques to deal with the various operations and transactions in the commercial world. The course structure of the BBA program is designed in such a manner that it acts as a foundation for the MBA program. This profession is one of the most fulfilling and rewarding careers in the world. In any sector, business administration experts or professionals play a very significant role.

### Career Opportunities:

BBA graduates can get jobs as an executive trainee or management trainee with any of the sectors mentioned below:

- ★ Advertising Agencies
- ★ Banking
- ★ Finance
- ★ Consultancy
- ★ Consumer Durable Companies
- ★ Marketing
- ★ Production
- ★ E-commerce
- ★ International Business
- ★ Corporate Trainers

### Further Education:

- ★ MBA
- ★ CA
- ★ CS
- ★ ICWA
- ★ M. Com.

## 9. B.Ed

### About The Course:

Bachelor of Education (B.Ed) is a course offered for those interested in pursuing a career in teaching. The B.Ed degree is mandatory for teaching in primary schools, high schools and senior secondary schools (6th to 10+2 classes).

- ★ Elementary or High School Teacher
- ★ Home Economics or Industrial Arts Teacher
- ★ Community Program Coordinator
- ★ Curriculum Developer
- ★ Educational Administrator
- ★ Entrepreneur
- ★ High School Counselor
- ★ Youth Worker
- ★ Instructional Designer
- ★ Library Technician or Teacher Librarian
- ★ Coordinator
- ★ Special Education Teacher

### Career Opportunities:

Teaching in schools.

### Further Education:

- ★ M.Ed

## 10. E.T.T

### About The Course:

This professional course instructs aspiring teachers on various teaching methods, educational philosophies and psychological principles behind childhood learning. The coursework prepares future educators to create and maintain a disciplined classroom as well as instruct and assess the standard elementary school curriculum. Teachers learn to create lesson plans, develop & assess tests and provide both one-on-one and group instructions.

### Career Opportunities:

Teaching in public / private elementary schools.

## 11. B.Com (Hons.)

### About The Course:

B.Com (Hons) Programme has been structured to produce students with Professional Accounting knowledge with Corporate in India. B.Com Hons is an innovative and rewarding program of professional competency in commerce and management. There is an increasing demand for commerce courses among students, especially for a professional program that fulfills the requirements of students planning to take up professional courses such as C.A., I.C.W.A., and C.S. In this context, the college introduced a new undergraduate program, B.Com (Hons). This program is expected to create enhanced competence of career positioning for the learner to become a global professional.

### Career Opportunities:

- ★ Chartered Accountant (CA)
- ★ Company Secretary (CS)
- ★ Cost and Work Accountant (CWA)
- ★ Chartered Financial Analyst
- ★ Banking
- ★ Investments
- ★ Insurance
- ★ Capital Market

### Further Education:

After B.Com (Hons.), student can do M. Com, MBA, MCA

## 12. MBA

### About The Course:

The Master of Business Administration (MBA) is a post-graduation degree designed to prepare students and further develop the skills required for careers in business and management. The core courses in an MBA program introduce the various areas of business such as Finance, Marketing, Human resources and Operations and IT.

### Career Opportunities:

- ★ Generalist Corporate HR
- ★ Performance Management
- ★ Recruitment & Selection
- ★ SAP HR
- ★ Training & Development

## 13. Diploma IT

### About The Course:

The faculty of the Information Technology Department is working with a sense of responsibility and dedication to excel and achieve success in this era of Information technology. The overall objective of the department is to make students understand their professional as well as an ethical responsibility.

### Career Opportunities:

- ★ Web Designing
- ★ System Administrator
- ★ Network Engineer
- ★ Software Engineer
- ★ Dataware Engineer

### Further Education:

You can pursue a bachelor's/master's of technology for higher education.

## 14. Diploma in Food Technology

### About The Course:

Food technology is a branch of science in which food science is applied in the manufacturing and preservations of food products. The food technologists study the chemical, physical and microbiological makeup of the food. The food is processed, preserved, packaged and stored according to the specifications by industry and Government today, several career options are available in India. One can opt for various food technology courses for a bright career. The food processing industry is rapidly growing in India and several employment opportunities are available in various industries.

### Career Opportunities:

One can get jobs in food processing industries, research laboratories, hotels, soft drink factories, quality control, rice mills, manufacturing industries, and distilleries.

### Further Education:

You can pursue a bachelor's/ master's of technology for higher education.

## Placement Records

Doaba Group of Colleges not only believes in delivering quality education but is also a deterrent in getting the students placed in their preferred profiles. Doaba has built its academic structure in such a manner that all the students are equipped to take responsibilities and face new challenges. The students here are trained to acquire a problem-solving approach and think beyond the theoretical aspects of engineering.

DCG has an exceptionally efficient placement cell, directed by the leading experts from the industry, along with student coordinators from each department. An average of 40 to 65 companies, visits our campus for job and internship recruitment. The satisfaction rate of our recruiters is quite high as the students eventually surpass their expectations and excel in their field

**87%**
